The House Committee on Appropriations this morning agreed to recommend the passage by the House of the special deficiency bill, appropriating $150,000 required for the continuance over throughout the current fiscal year. The Committee also completed the Indian Appropriation bill. As agreed to in the Committee, the bill appropriates in the aggregate, $4 710 000.

Judge Buchanan was authorized by the Committee to report an amendment to the Senate bill providing for the purchase by the U S Government of the Freedman's Bank, and appropriating for that purpose $275 000.

The House amendment reduces the sum to $155.000. The Committee also decided to recommend non-concurrence in the Senate amendments to the military academy bill of Mr Stenger in support of the majority report. The bill was then passed over without action, to come up again on Tuesday.

Senate bill to regulate Presidential elections was taken from the Speaker's table and referred to Committee on that subject. The House at 3:40 adjourned.

Resuming Specie Payments.

By Telegraph to the News.

WASHINGTON, Dec. 14.—Secretary Sherman has issued a circular of instructions to-day with regard to the resumption of specie payments on the 1st of January, in which, after quoting the third section of the Resumption Act, he states that as the effect of above section will be to remove all practical difference in the value of coin and United States notes after January 1st, no discussion will be made between them in keeping or settling the accounts of public officers involving transactions subsequent to that date. Matured coupons of United States and checks of United States Treasurer for interest or principal of the public debt legally payable in coin, will be paid in coin or its equivalent at the option of the holder, by the Assistant Treasurer of the United States, at New York city, or in notes by any other independent treasury officer. Such registered interest, legally payable in coin, as is paid on schedules at other cities than New York, will be paid to the claimant directly in notes, if he so desire, by the officer charged with the payment of schedule, or in coin by check on the Assistant United States Treasurer, at New York. Any check or draft hereafter drawn in payment of a public obligation legally payable in coin, will have that fact plainly noted thereon.

A Tribute of Respect.

HALL OF OXFORD LODGE No. 103, I. O. O. F.

Oxford, N. C., Dec. 11th, 1878.

At a regular meeting of Oxford Lodge 103, I. O. O. F., held on Wednesday, Dec. 11th, 1878, the following resolutions, offered by P. G. Wm. Biggs, were unanimously adopted:

It is meet and proper, that whenever the chastening hand of Providence is laid upon our beloved Order, taking to the Spirit Land some honored brother and esteemed associate, that the brethren should, in suitable words, express their appreciation of the loss sustained and their respect for the departed.

The late sad and untimely death of Past Grand Master and Grand Representative Seaton Gales is a dispensation of Divine Providence which will be keenly felt not only by the Independent Order of Odd Fellows, of which organization the deceased was a bright and shining light, but also wherever virtue is appreciated and manly attributes understood and admired.

Oxford Lodge, as a component part of our great brotherhood, joins with the Order everywhere in mourning the death of our gifted brother, stricken down in the pride of manhood, in the zenith of his power and usefulness, and it desires to condole in union over the irreparable loss sustained by the Order and the State at large.

Past Grand Master Seaton Gales was no ordinary man. He was endowed with rare genius of mind, enriched and adorned by unusual personal gifts which rendered him beloved and honored wherever known, combining, as he did, in his person many of the qualities which go far towards making men great and distinguished.

As a member and as representative of Old Fellowship he will ever be kindly remembered and his memory cherished, so long as the principles of our Order are observed and the golden links preserved.

RESOLVED, That this expression of our feelings be spared upon our minutes, and that the GRANVILLE FREE LANCE and Raleigh Observer and News be requested to publish the same.

O'Hara vs. Kitchin.

New Berne Nutshell

This case came up before Judge Seymour Thursday. The counsel for the defendants, Messrs. H. R. Bryan and Chas. C. Clark, filed a demurrer, that it did not appear upon the complaint that the plaintiff did not have any legal right to be enforced, or, in other words, it did not appear whether if the votes alleged to have been thrown out illegally, were counted for O'Hara, that he would be elected, was held by His Honor to be final. His Honor, however, allowed the plaintiff to amend, and gave the defendants ten days to answer.

The Moffett Punch in Virginia.

The report of the auditor of public accounts to be made to the General Assembly of Virginia at the session to begin on Wednesday, will show that Moffett register system of liquor taxation has realized about $500,0 0. This is less than was claimed for it when it was before the Legislature, but is more than has been expected at any time within the past six months, and is two or three times as much as the old license plan produced. It is anticipated that the auditor will recommend that the loose places in the Moffett law be tightened and that a better register be adopted. There is now very little active opposition to the law.

Rules for the Journey of Life.

The following rules from the papers of Dr. West, according to this memorandum, are thrown together as general waymarks in the journey of life:

Never ridicule sacred things or what others may esteem as such, however absurd they may appear to you.

Never show levity when people are engaged in worship.

Never resent a supposed injury, till you know the views and motives of the author of it.

Always take the part of an absent person who may be censured in company, so far as truth and propriety will allow.

Never think worse of another on his differing from you in political and religious subjects.

Not to dispute with a man who is more than seventy years of age, nor with a woman, nor any sort of enthusiast.

Not to effect to be witty, or to jest, so as to hurt the feelings of another.

To say as little as possible of yourself and those who are near you.

To act with cheerfulness without levity.

Never to court the favor of the rich by flattering their vanities or their riches.

To speak with calmness and deliberation on all occasions, especially of circumstances which tend to irritate.

They Don't Press the Case.

The Republicans are not pressing the cipher dispatch question with much vigor since it has been discovered that the Democrats are willing and anxious that they should be investigated. They fear that there is a hidden mine that will be exploded to their injury. For all that the investigation should be made. The people what to know the truth no matter whom it hurts, and they demand to know the whole truth.

Too Much of it.

It is possible to have "too much of a good thing," as for instance, elections under such a system of government as ours.

One election is hardly done with before preparation for another is begun. The country is kept in a continual f rment all the time, and many cool-headed people are questioning whether, after all, a less number of elections would not be a good thing for the people.

The general, state and municipal elections take up most of the time people are able to give to the consideration of public matters, and more time than many can spare. Two evil results are patent to the most casual observer. First, a constantly increasing number of people are ceasing to give any time or attention to political matters. This is a most serious result, for under our system of government it is necessary, to secure the best results, that every citizen, as nearly as possible, shall be a politician, in the sense of taking interest in political matters, particularly the important matter of securing the nomination of none but good men for official position.

The second serious result now evident, follows naturaly from the first If any class of men cease to take interest in political matters, that class is likely to be made up of the very men who of all the citizens, should be felt in the caucus, convention and canvass. If good, honest, law-abiding citizens get tired out over the ceaseless grind attendant on frequently occuring elections, there is another class of men who do not tire, and unfortunately these men are not desirable leaders and directors of political sentiment and action. The "trained and skilled politician" has become a feature of our political life, and generally he is a man who can control the action of a caucus. or shape the course of a convention favor of the trained politician, and the latter comes to regard politics as a trade, and looks to it for his "living."

These are but two of the bad outgrowths of our political experience. disgust on the part of good men, and a system of professional politics; others will readily occur to any one who gives the subject a thought. The most prolific source of this deplorable result is the frequency of elections. If they did not occur so often men of business, professional men, and all others whose time and attention are taken up by work, could afford to attend to their political duties, but if they are compelled to choose between looking after their own business and attending to public matters, they will stay at home instead of going to the caucus, the convention, or even the polls. Another good effect that would follow the change suggested would be the destruction virtually of the "professional politician" class, because there would not be "enough in it" to pay a man for taking to it as a profession. If the men who make our laws will look to this matter, and relieve the public from the continual strain put upon it they will secure the approbation of a grateful people.—Housac (Mass.) *News.*

Narrow Escape from a Horrible Death.

New Berne Nutshell.

The residence of Mr. Jas. R. Bell, at Hallowe, Carteret county, was destroyed by fire on Monday night. The family, consisting of Mr. Bell, his wife and child and a young lady, had retired and were all asleep, when a traveller who was passing, discovered that the house was on fire. Not seeing any of the inmates of the house, he rightly judged that they were all asleep and at once proceeded to awake them. He was not a minute too soon, for all in the house were then in mortal peril from the fire. When awakened they were almost enveloped in the flames and had to flee for their lives.

The Peace of God not Brain-Work.

Thought, however sincere and deep, is powerless to reach the deepest springs of truth and consolation. It seems to me the necessity which in our time is forced upon thoughtful men—of intense and continuous study of religious questions—carries with it a danger of trusting to the intellect for what it can never give us by itself. Our thinking has not done us its full service until it has brought us to the point where we can be open and receptive to those great and unspeakable realities, which at times flash themselves home to our consciousness. The peace of God passeth understanding.

Investigating Hog Cholera.

In accordance with the bill of last Congress, introduced by Senator Paddock, which appropriated $10,000 to pay the expenses of an investigation of the nature and cause of the diseases prevalent among swine, the commissioner of agriculture appointed competent gentlemen in the States of Indiana, Illinois, Iowa, Nebraska, Kansas, Missouri, North Carolina, Virginia and the western part of New York, who have been engaged in prosecuting their investigations, and have nearly all submitted extended reports. These reports have been carefully collated and deductions made and the results embodied in a report which will be made to Congress. From a hasty examination of the papers it is evident that the theory that the disease is identical in all portions of the country, is established beyond doubt. It was also discovered that in all cases of disease among swine the lungs are affected, and also that the term "hog cholera" is a misnomer. From the character of the gentlemen engaged in the investigation, including such names as Dr H J Detmos, the veterinary writer of the Chicago Tribune, Prof. Law, of Cornell University, Dr D. W. Voyles, of New Albany, Ind., Dr. Salmon, of North Carolina, and others, it is expected that the results of this investigation will prove to be of the highest importance in throwing light on a subject which yearly destroys a large portion of the revenue of the stock-raisers and farmers of the country.

U. S. Engineers Surveying the Yadkin River.

Salem P ess.

Last Monday the U. S. Surveying Corps reached Idol's Ferry, on the Yadkin River. The company numbers 30 and the aver ge rate of travel is from 5 to 6 miles per day. Three good sized boats, one the "Christian Reid," are used for transportation by the party. Frequent rains cause much delay. The success of making the Yadkin navigable is spoken of as highly probable.

ARMY RE-ORGANIZATION.

A Systematic Reduction in all the Departments --- Three Hundred Officers Turned Out to Grass--The Color and Political Line Abolished--- Other Details.

Washington Post.

The new army bill framed by the joint commission of Congress reduces the general officers to six, two majors and four Brigadier-Generals, and consolidates the adjutant and inspector general's departments. The engineer corps and signal service remain unchanged. Post chaplains are made regimental chaplains, and the number is reduced 8; they have to be recommended by the church to which they belong. The number of regiments are reduced as follows: Infantry, from 25 to 18; cavalry, from 10 to 8, and artillery to remain as now—five regiments. —A reduction in all of nine regiments. Each regiment shall consist of four battalions. Two battalions of each infantry and artillery regiment are to be kept officered and manned in full, the third to be officered but not manned, and the fourth to be neither officered nor manned in time of peace, but to be brought into existence when Congress may direct. This makes the regiments consist actually of two full battalions and officers for the third, and the officers and men both for the fourth, exist as skeleton battalions to form a reserve force to be filled up in the event of war. Each battalion shall consist of four companies or batteries, and the regiments, in time of peace with the skeleton battalions unfilled, will have about 730 men. In cavalry regiments three of the battalions are to be officered and manned for the present. The army is to remain as now, at 25, 000 men. The permanent staff will not contain any officer below the rank of major; all the officers for staff duty below major to be detailed from the line; no officer is eligible to detail for staff duty unless he has served six years, and then his detail shall be for three years only. This is to keep up rotation in the staff service. The medical staff is exempted from this provision. All bands and details for bands are discontinued and prohibited for the future, and the men composing them to be returned to duty in their respective regiments. Extra duty pay to men is forbidden, and the manufacture of armsin the ordnance d partment is prohibited; all arms for the service shall be bought in the open market. Postraderships are ab lished, and the commissary department is required to supply all wants of the soldier, charging him only cash for such articles as are not allowed him as subsistence. The pay of officers and men remains unchanged, except that the non-commissioned officers are increased as proposed by General Dobrell's bill of last session. All general officers are peremptorily retired at the age of sixty-five, and all other than general officers at the age of sixty-two. To make this effective the law limiting the retired list is suspended; and it is left open for any number of officers. All orders relating to military operations shall come through the headquarters of the army. All promotions shall be made from graduates of West Point and meritorious non-commissioned officers, and no promotion shall be made without examination. Officers retired for disability are divided into three classes: 1st class, for total disability, to receive full pay; 2 class, 70 per cent. of pay. and the third class half pay. For the reduction or the number of officers an elaborate system of transfer and retirement is provided. A reserved list is provided for, and a board to pass upon the retirement and dismissal of officers—known in army parlance as a "bezzine board"—is authorized. Officers in good standing, who are in good standing, who are mustered out, are allowed one year's pay for every five years of service they have rendered, and those mustered out for misconduct may be allowed one year's pay at the discretion of the President. Promotions are to be lineal in each branch of service, and not confined to regiments as now. Appointments and promotions to chief of staff may be taken from line officers anywhere in the army. The bill cuts off 333 officers altogether, of whom 136 are regimental officers. It repeals section 1218 of the Revised Statutes, which forbids the appointment in the army of any person who served in the Confederate cause; it also repeals the law providing for colored regiments, and leaves the army open to the enlistment of negroes it receiving officers choose to take them in. The sections of the Revised Statutes repealed are from 1094 to 1542 inclusive. This bill was reported unanimously from the joint committee, and it contains nearly all the important reforms proposed by the Banning bill of last session. It has been made the special order in the House for January 9, to remain under consideration in committee of the whole until disposed of.

Welcome Back.

Dr. Pritchard, in Biblical Recorder.

It gives me pleasure to state that the Rev. Messrs. Black and Norman have been returned by the Conference to the pulpits of the Raleigh Methodist churches. They show themselves to be Christian gentlemen, and the ability and faithfulness with which they have discharged the duties of their high calling have secured for them the esteem and confidence of our people. It is a pl asure to b associated with such men, and as a brother pastor I cordially greet them on their return.

Break, break, break,
On thy cold gray stones, oh sea!
And I would that my tongue could utter
The thoughts that arise in me.

O, well for the fisherman's boy,
That he shouts with his sister at play!
O well for the sailor lad,
That he sings in his boat on the bay!

"And the stately ships go on
To their haven under the hill;
But oh for the touch of a vanished hand
And the sound of a voice that is still!

"Break, break, break,
At the f oot of thy crags, oh sea!
But the tender grace of a day that is dead
Will never come back to me."

In a recent scandal case in Kansas, a lady witness declined to answer a question, and the attorney demanded her reason. "Because it is not fit to tell decent people." "Oh, well," said the lawyer, "just walk up here and whisper it to the Judge."

The Bingham School.

Elsewhere will be seen the advertisement of this celebrated school. whose good name and fame are known to every North Carolinian. The merits of the school are so great that no praise is needed. The present status of the school is well stated in the circular, which says:

"We call attention to the fact that this is the oldest school in the South; that our numbers at present are larger than those of any similar school in the South; that we command higher tuition fees than any other institution of learning of any grade in the South, for males, ($150 per year before the war and up to 1867; $125 at present); that those who complete our regular course with first distinction, and whose character we can endorse, command higher pay as teachers (from $400 to $800 and board per year) than the pupils of any other school in the South; that we make more liberal offers to young men with limited means than any other school in the United States; that the area from which our patronage is drawn exceeds that of any other school in the South, extending as it does from Virginia, Kentucky and Wisconsin on the North to Florida and Texas on the South, and Asia is also represented. These facts indicate our status better than the most flattering testimonials could do."

John T. Raymond.

Raleigh theatre-goers were given a rare treat last evening by this admirable actor and his supporting troupe in the "Gilded Age." Tucker Hall was filled by a select audience, who evinced their appreciation of the fine acting. The play is peculiarly American, and the situations are alternately ludicrous or pathetic. The principal characters, that of Col. Mulberry, Sellers, has been immortalized by Raymond, and as the impoverished though urbane entertainer in the turnip feast, the inventor of the eye water, or as a witness at the trial, he drew unbounded applause. The part of Laura Hawkins was well taken by Miss Forsythe. while Mr. Saville as Col. Selby was effective. It is idle to enlarge upon the rendition of the play by so able a troupe and the people who attended last evening have every reason to be delighted with the performance, and will always hold in pleasant remembrance the eminent actor Raymond.

Correspondence of the News.

It is much to be regretted that a meeting of the Young Men's Christian Association of Raleigh sufficiently large to transact business, has not thus far been held. The Association contains more than one hundred members, of whom seven constitute a quorum for business. Is it possible that even seven cannot be induced to attend? Christmas is near at hand; the winter will soon be upon us; the poor and the needy are at the very door of suffering for fuel and food; the Association is a large and powerful body, and could make provision for the poor, if it would, and yet its members are disposed and to indeed appear to be indifferent to their solemn pledges, and nothing is done. Brethren, let us up and be doing. Let us have a large meeting on Tuesday night, and let the committees at once proceed to raise funds. It is not advisable to wait until it snows and the cold is pinching. Let us be ready for hard weather; let us anticipate it, for we know it is coming, by having in hand sufficient funds to supply the wants of the poor. Come one, come all on Tuesday evening. A MEMBER.

How to Convert an Infidel.

Do not try to disprove his error. Perhaps that error because no error is wholly erroneous, is better for him than no faith at all. But make your truth live and convincing. Through every entrance force its life home on his life. Let him hear it in your voice, see it in your face, feel it in your whole life. Make it claim its true kinship with the truth that is lying somewhere in the mid t of all his error. Would you go a hundred miles merely to make a Mohammedan disbelieve Mohammed? Who would not go half around the world to make him believe Christ and know the richness of the Saviour?

Concert at the Institution for the Deaf and Dumb and Blind.

For many years it has been customary to hold a concert and exhibition at this Institution, just before the Christmas holidays, to realize funds for the children a Christmas treat. Sometimes the money has been raised by a collection, and sometimes by charging a small admission fee at the door. The latter has proven the most satisfac ory:

This year by unanimous vote of the pupils the proceeds are to be devoted to the Oxford Orphan Asylum.

The citizens of Raleigh have always taken great interest in the Institution and have attended, enjoyed, and paied for these entertainments. They have felt specially called upon to contribute to the enjoyment of these unfortunate children here assembled; but when it is announced that they are willing to give a concert and devote the whole of the proceeds to those in more unhappy circumstances than themselves, a strong appeal is made to everything that is noble in human nature to come to their assistance. Besides, the entertainment will be well worthy the patronage of the public, irrespective of the object had in view, as will be seen from the following:

This is a bona fide offer, and we mean what we say. We will not require any unreasonable conditions.

"Darling Lovelle Once Again."

Is the title of a new piece of sheet music, edited and published by Mr. Henry C Wyatt, of Richmond, Va. Aside from its claim as a Southern production, we can cheerfully recommend it, after a thorough trial as a ballad of rare merit and exquisite sweetness. Mr. Wyatt is the author of several others, viz: "Do you think I could forget thee," "Treasured friendship," "Father's hair is turning gray," etc., which we have never had the pleasure of trying, but this last, we predict, is destined to win its way into popular favor, and at once stamps its author as a poet and musician of no small merit. *

The Mutual Life Insurance Company of New York, besides its vast assets of $85,000,000, ($23,000,000 more than all the Banks of New York combined,) has accumulated about $4,000,000 from lapsed and surrendered policies since 1873 which agrees to give to new applicants for insurance as follows, viz: 30 per cent, of the premium the 1st and 2nd years, on Ordinary Life Policies, and 15 per cent. on term or Endowment Policies, The dividends in this company have for more than 10 years averaged 37 per cent. 2 years dividends will be deducted from the 3 d years premium, Hence the great demand at our office for policies and the terrible howl among the smaller Insurance Companies. It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are pre isposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Co-chee's German Syrup. DAILY NEWS

SUNDAY.....DECEMBER 15, 1878

ORGAN OF THE DEMOCRATIC PARTY

The News Building, No. 6. Martin Stree

The Hon Mr. Smalls, carpet bag Congressman from South Carolina, is reported to be "surprised" and "pained" that a South Carolina jury should exhibit such gross partisanship as to find him guilty of the minor offense of bribery. When the sheriff's deputy takes him from Washington to the penitentiary, where he has been sentenced to serve for three years, the Honorable Smalls will have a vast access of "surprise" and "pain." Isn't it about time for our stalwart friends to write up this latest Southern outrage?

The Republicans express some indignation at the South because it elected no negro Congressmen last month. This charge, we are sorry to say, is true; but now of the North? Our Republican brethen north of the line were given several fine opportunities of sending negroes to Congress, but in every case neglected the opportunity. There were lot a few negro candidates in Northern States. For instance, Peter Clark, a former colored leader of the Republican party, was a candidate for this distinguished honor in the President's own city. But though the Republicans of Cincinnati owe their majority to colored votes, they declined Peter and elected a white man instead. If the Northern Republicans want a negro in Congress, they will have to elect him themselves.

The Chicago Times has got hold of the programme for Grant's reception in Boston, which is to electrify the nation and boost Ulysses into the Presidential chair. It has discovered the copy of a letter sent by the proposed master of ceremonies of this reception to leading Massachusetts Republicans supposed to favor Grant's nomination. Gov. Rice, of Massachusetts, is all right, the latter says, and will welcome the distinguished wanderer home with all the honors the Commonwealth of Massachusetts can give. Besides this, however, there must be an immense popular demonstration, and for this purpose the people must be worked up. Money is needed for this—at least $10,000 is wanted—and the master of ceremonies accordingly writes to all the corporations and persons supposed to favor Grant, asking for a contribution to this fund. He also asks these persons to use all their influence to help and get up in support of Grant a spontaneous outburst of popular enthusiasm; to be themselves at Boston to welcome Grant home, and persuade as many of his friends as possible to be there also. "You have now an opportunity," this master of ceremonies announces, "to identify yourself with this movement, which, if successful, as it must be, will inure to the benefit of yourself and friends." Here is a splendid opportunity to get the refusal of an office cheap. Five dollars contributed to the Grant triumphal welcome fund will entitle the subscriber to call for a postoffice in 1880—that is, if Grant is elected.

Refering to the argument of the blatant boaster Blaine before the Senate, the Philadelpeia Times says:

The evident absence of candor on one point takes a most vital link from the chain of Senator Blaine's argument. It is not a proven fact that the colored voters of the South, as a rule, have been in any way denied the right of suffrage. We do not mean this dissent to be made in any technical or narrow sense. We believe that any public policy of a State, or any organized efforts of its leaders in or out of official power, that effects the disfranchisement of any class of citizens is a wrong that demands whatever power may be necessary for its correction; and if the colored vote of any Southern State has been excluded from its proper voice in the selection of law-makers, such State has offended against the supreme authority of the government. But it must not be the assumption of characterless partisan officials whose vocations and plunder depend upon their success in defaming their people, nor the reckless declaration of partisan organs which have cease to command public respect. Nor can it be assumed because Republican districts here and there elect Democratic Congressmen; for both Republican and Democratic districts North and South have done the same thing when large majorities had to be reversed. It must be established as exceptional from the political wrongs of all sections and all parties, and as subversive of all government. To score up the number of blacks in the South and demand an equal Republican vote, would be an absurdity too palpable for Senator Blaine to accept, especially after the impressive lesson his own Republican State gave him a few months ago; and yet when these rules are applied to the argument of the speech before us, they terribly skeleton the impassioned sentences.

Arrangements are now being made to have called at an early day a national convention of colored men at Washington, the object of which will be to memorialize Congress to take away the representation in Congress which is based upon the colored population of the various states in the Union. The memorial will set forth that, inas much as the fourteenth amendment to the constitution provides that "when the right to vote at any election for the choice of electors for President and Vice President of the United States, representatives in Congess, the executive and judicial officers of a State, or the members of the legislature thereof, is denied to any of the male inhabitants of such State, being twenty-one years of age and citizens of the United States, or in any way abridged except for participation in rebellion or other crimes, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State." and that it is a notorious fact that in certain of the late slaveholding States the right to vote is not only practically denied to the great mass of colored electors, but the supposed intention on their part to exercise, untrammeled, the right conferred upon them by the fourteenth amendment subjects them to every species of outrage and persecution. Therefore, they pray Congress to exercise the power conferred upon it by section 5 of the fourteenth amendment to abridge the basis of representation in the States where they falsely assert colored people are denied the right to vote in such proportion as the number of intimidated male citizens bears to to the whole number of male citizens twenty-one years of age. The initiatory movement looking to the calling of this national convention of colored men was begun in South Carolina not long since. It has been quietly worked up in nearly all the southern States, and the call for the convention will be issued in due time. It is doubtless a part of the general programme which has been agreed upon by the leaders of the Radical party to make the Southern question the paramount one in the coming presidential campaign.

Vegetine

Kidney Complaints.

Diseases of the Kidneys, Bladder &c., are always unpleasant, and at times they become the most distressing and dangerous diseases that can afflict the human system. Most diseases of the Kidneys arise from Impurities in the blood, causing humors which settle on these parts. Vegetine excels any known remedy in the world for cleansing and purifying the blood, thereby causing a healthy action to all the organs of the body.

MECKLENBURG.—Charlotte Democrat: The persons from South Carolina, who came over into North Carolina to fight a duel recently, will be indicted by a Mecklenburg court.....Counterfeit $5 bills on the Traders' National Bank of Chicago are in circulation They are said to be well executed.

WARREN.—Warren News: The diphtheria is raging in some sections of the country to such an extent as to be really alarming. It seems to be peculiarly fatal this season....Our esteemed citizen, Dr. S. G. Ward, has sold the principal portion of his household furniture and contemplates an early move to Texas.

WAYNE.—Goldsboro Mail: The Goldsboro Rifles will have a dress parade on Tuesday next. A handsome silver cup will be competed for in the target shooting by the Company....John Matthew, some days since, brought his cotton to this place and sold it, also sold his horse and buggy, and with $600.00 in cash and the wife of another man, he left his own wife and six children, and is off for Texas.

ANSON.—Wadesboro Herald: There is a series of revival sermons being preached in our Baptist Church, by Rev. Mr. Whitfield of Charlotte....S. T. Ashe, son of Judge Ashe, has returned from Raleigh with his accomplished bride....One of the prisoners in our County jail tried to make his escape Sunday evening. He knocked Mr. Thos. Threadgill down. Mr. T. at once fired at him, which no doubt scared him from making any further resistance.

GUILFORD.—Greensboro North State: A Grand Hop to be given by the young men of Greensboro, will be held at the McAdoo House, on the evening of the 23d December.....Divine service will be held at Good Templar's Hall, on Sunday night at 7 o'clock, and will be continued at the same place and hour every evening during the week. The church was greatly strengthened and revived. ...Mount Zion church, located at Walnut Grove in this county, was, on Monday last, the scene of a most distressing accident by which quite a number of persons were seriously injured, and it is feared two fatally. The cause was the fall of a scaffold with persons on it.

Martin, who shot a man a few nights ago, supposing him to be Johnson, has received a message from the desperado to the effect that he will meet him sometime....Outlaw, Elvi Johnson, was detected a few days ago on top of a train. He sprang from the car, and leaped over the high wall to the net work of traks below, gained his feet and shot off like a deer....The Steamship Raleigh, for whom so much anxiety was felt when the painful rumor became current that the steamer was lost, steamed into port this afternoon in good order and condition, with her crew and cargo all safe and sound.

FORSYTHE.—Salem Press: The annual Church officer's love-feast was held in the Moravian Church Chapel, Thursday evening. The musicians, Sunday School teachers, and all officials of the Church participated.... The next term of court will be the Interior which meets on the 2nd Monday in February ....There have been 30 odd additions of membership to the Methodist Episcopal Church since the rivival of Mrs. Moon and Miss Painter....An employee in the Collector of Internal Revenue's office informs us that the removal of the department back to Greensboro is very improbable....The tobacco market is brisk. Moore so than for weeks past. The weed comes in freely and sells readily.....Amos Yokely, colored, who was convicted of larceny at the last term of our Superior Court and sentenced to the Penitentiary for a term eight years, has, we learn, made his his escape.

Real Resumption.

New York World,

Our esteemed contemporaries in the South are awakening to the perils which dwell in the law of May last which forbids Secretary Sherman to retire, cancel or destroy any redeemed greenback, and commands him to reissue it, pay it out "again" and keep it "in circulation." They are quite correct when they say that Congress has declared that "when any United States "notes are returned to the Treasury "they may be reissued." But that was declared in 1862, when of course the legal tenders were to be kept in circulation, whether consided as money, and therefore taxable by a State like silver and gold coins, or as federal obligations, and therefore, as the Supreme Court said, not taxable by any State That was the war period. But in April, 1866, war had ceased, and peaceful repair of its ravages had begun. Then was entered upon the era of redemption and payment, and then Congress directed the Executive to retire the legal tenders. Then reissuing was to come to an end. Two years thereafter Congress suspended—but merely suspended—contraction by "retiring and canceling," as section 3 582 of the Revised Statues recites; but by the resumption law of 1875 redemption began as fast as new national bank paper was issued, and the Secretary was commanded to begin January 1, 1879 to "redeem" all the greenbacks that might be presented. No one in the South can doubt that the intention of that law was that the redeemed greenbacks were under it to be cancelled and destroyed.

Railroad Reminiscences.

Warren News.

We met an old gentleman the other day, who amused us a good deal with his recollections of the Petersburg Railroad, when first opened. He said that the coaches used upon the road at first were about the size of an ordinary stage coach, and would seat six or eight passengers. The freight cars were all open flats, with capacity for six or eight bales of cotton, and that very frequently one half of the load would be burnt up from the sparks before it reached its destination, until the plan was adopted of covering the cotton bags with old cloths to protect them from the sparks. We asked him who paid for the cotton when it was burned. He said that sometimes the Railroad Company did, and sometimes it did not. Verily, this is an age of progress.

THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with, the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone someth ng which ought to have been done. A light, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

Dr. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated. Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS have the signatures of C. McLANE and CHARLES BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Messrs. CHARLES BROS., of Pittsburgh, Pa., the latter being full of initials of the name *McLane*, spelled differently but same pronunciation.

THE ONLY PERFECT FAC-SIMILE OF THE REAL DIAMOND IN THE WORLD.

Pronounced by the Academy of France that *M. Lefevre has really obtained artificially the true diamond.* The basis of these gems are pure crystals found in the Sierra Nevada, from whence they are exported to the Lefevre Laboratory in Paris, France, where they are submitted to a chemical and voltaic process, by which their surfaces are covered with a coating of pure diamonds,

BY WHICH THEIR SURFACES ARE COVERED WITH A COATING OF PURE DIAMONDS,

imparting to them all the BRILLIANCY, HARDNESS and reflective qualities of the natural diamond, and making them as near perfect as human skill can produce. Having, for the purpose of introducing the Wonderful Lefevre Diamonds for Wear, Brilliancy, and Beauty, as the veritable gems themselves, made a liberal offer to the readers of this paper, we are accordingly engravings of The Ring, Studs, and Ear Drops, as displayed in this announcement, are correct representations of the goods. ON RECEIPT OF ONE DOLLAR we will send free, by REGISTERED MAIL, to any address in America, either article as above represented. Our "Book on Diamonds," with illustrations of artistic Diamond Jewelry in solid (14 k.) gold, mailed free.

I have seen many imitations of diamonds, but never any that could equal the Lefevre Brilliant.—M. ELLROY, Stamford, Conn.

I am in receipt of one of the Wonderful Lefevre Ear Drops, for one dollar; to say that I am pleased with them hardly fills the bill, they are simply elegant.—ANDREW MORRIS, Harrisville, N. Y.

The Wonderful Lefevre Diamond Ring, for one dollar, came to hand this morning, it is really elegant, giving entire satisfaction, and eliciting words of admiration from all who see it.—W. H. REDDY, Martinsburg, W. Va.

The Lefevre Diamonds, mounted in solid gold, are truly marvelous.—J. R. SPENCER, Home and Farm, Louisville, Ky.

The eminently successful experiments of M. Lefevre silences the doubt of the artificial reproduction of the true diamond.—M. DU PREUIL, of the Journal of Progress, Paris, France.

The Lefevre Diamond most effectually disturbs the slumbers of the possessors of costly gems.—Journal of Science.

HOME REMEDY.

A CERTAIN AND SPEEDY

CURE FOR SCROFULA.

FACTS ARE STUBBORN THING

TRADE MARK TRADE MARK

(Registered.)

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing scrofula with Mrs Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the scrofula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scrofulous affection on the head. He had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Nothing did him any good. At Kittrell's they told him of Mrs. Person's recipe, and Dr. —— wrote to Mrs. Person if she cured that South Carolinian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars and wrote the most grateful letter one ever knew. Bless the old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last winter proved of lasting benefit to my son, who was troubled with 27 running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. As a TONIC AND BLOOD PURIFIER IT HAS NO EQUAL. Hoping that you may be spared for many years of usefulness, I remain, Very respectfully,

C. J. STOKES.

Louisburg, N. C., May 22, '78.

AS A TONIC AND ALTERATIVE

MOORESVILLE, IREDELL CO., N. C.

Being desirous of adding my testimonia to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine, Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any TONIC I have ever used. When I commenced using Mrs. Person's Remedy I was very weak, complection sallow, and now I am WELL.

Respectfully your friend,

MRS. E. T. BROWN.

THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C.

MRS JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,

WM. H. ARRINGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, my appetite returned, health and strength and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would continue to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,

JAMES A. MORRIS.

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and especially for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years. It has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action, and run up to 20 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and respectfully,

JOHN DUIE BAXLEY.

Decision in the Kitchen O'Hara Cases.

Judge Seymour yesterday decided these cases as follows:

The mandamuses asked for in the Halifax and Edgecombe cases were granted.

The demurrer filed in the Craven case was sustained. Plaintiffs allowed to amend and defendant allowed ten days to answer.

The motion to dissolve the restraining order granted heretofore against the State Board of Canvassers was denied and the motion for further injunction against them was also denied.

The Halifax Tax Injunction.

In this case Colonel Walter Clark and Edward T. Clark represented the taxpayers of Halifax. The same points being at issue as in the Wake case the Judge made the same decision without further argument. The decision on the above question being one of general interest, Judge Seymour has kindly consented to write out his opinion in full which we shall have the pleasure of laying before the readers of the News in the next issue.

The Tax Injunction Case--The Result.

Yesterday this case came on for decision on the motion to show cause why the restraining order heretofore granted should not be made permanent. Judge Seymour arrived from Newbern and took his seat on the bench at 1:30 p. m. The taxpayers were represented by Messrs. D. G. Fowle, Walter Clark, W. H. Pace, and A. W. Haywood. Messrs. Busbee and Busbee filed an answer for the Board of County Commissioners, alleging that there had not been a legal tender, that the 8½ cents levied by the school law was a special county tax authorized by the Legislature and that the Insane Asylum and Penitentiary tax were special State taxes.

George H. Snow, Esq., filed an answer for the sheriff, alleging that he was a mere ministerial officer, and offering to submit to the judgment of the Court.

A. W. Haywood, Esq., opened the case, and was followed on the same side by Mr. Pace. Mr. F. H. Busbee and F. P. Devereux followed for the defendants. The Judge then delivered the following decision:

That it was not necessary to decide whether the tender here made was legal to form as he held that where an injunction was only asked for as to the excess a tender was not necessary of the amount admitted to be due but against which no injunction had been asked.

That the 8½ cents on the $100 levied by the school act for school purposes was a part of the general State taxes, and the same with the levy for Insane Asylum and Penitentiary.

That the injunction must be granted and the sheriff be permanently enjoined from collecting more than 66⅔ cents on the $108 and $2.00 on the poll, exclusive of the special levy for Graded School purposes in Raleigh township.

Upon announcement of the decision the Board of County Commissioners and sheriff had a short conference with their counsel, who then announced that there would be no appeal from the decision.

The Commissioners subsequently instructed the sheriff to collect no greater tax out of any taxpayers than the amount above held by the Judge to be legal.

Religious News.

The revival at Wake Forest College still continues; some twenty odd have professed religion, and the students as well as the citizens of the vicinity seem to be deeply impressed. Dr. McDonald, the gentleman who has conducted the meeting, is an Irishman by birth, was educated at Dublin University, came to this country as a young man, practiced law for a time in Kentucky, and after entering the ministry was a professor of theology in Georgetown College, Ky. He has been Pastor of the Second Baptist Church, Richmond, Va., for about 2 years.

Dr. Pritchard will occupy his pulpit morning and evening to-day. He comes pastors as do other pastors, of the ugly babit some young men have of standing around the church doors, while the congregation is assembling and dispersing. Such a habit is oppressive to ladies and a mark of ill-breeding which all respectable young men should avoid.

No Fun for the Mule.

Yesterday morning a small mule attached to a cart of primitive build and equally diminutive size, was moving quietly along Wilmington street, when suddenly a heavy truck swept by. It caught the vehicle by a wheel and like a flash dashed the driver out, threw the cart over, and there lay the mule, inglorious, on its beam ends, vainly beating the air with its hoofs. A great crowd gathered who chaffed the unlucky driver till he was furious, the while suggesting a thousand plans for the relief of the mule. Finally the little beast was put on his feet, but he looked subdued and humbled. The wagon was set to rights and the crowd started off the team with bursts of laughter.

Honors to a North Carolinian.

The result of the controversy growing out of the writings of Dr Eugene Grissom, upon the questions involved in the trials and disposition of the Criminal Insane, including expert testimony, has been gratifying to North Carolinian pride. Dr. Grissom was elected on the 12th of November, the high honor of corresponding members of the General Prison Society of Paris, which has for its active members the first statesmen and scientific men of France, such for example, Dufaure, St. Simon, Duc de Broglie, Saint Hilaire, Mignet, Grevy and others of world wide fame. Monsieur Fernand Desportes, General Secretary, has sent Dr. Grissom an official certificate of his election by the Council of Directors.

The Way Vanderbilt Succeeded.

When Commodore Vanderbilt was running steamboats, he beat all rivals by crowding on steam to the utmost, and even running down all who did not get out of his way. When railroading, he adopted a much broader and more successful way, by and by vast lines and their tributaries under his own management, thus capturing all rivals, by sharing with them the immense pool of profits that were made by his skillful manipulations. Messrs. Lawrence & Co., bankers N. Y. accomplish a much greater success in Stock operations by their new combination Method of dealing, by which some thousands of customers are pooled into one vast sum and operated under the most experienced management, thus giving to each shareholder all the benefits of large capital and best skill. Profits divided monthly. Any amount from $5 to $25,000 can be used with great success. $15 will make $75 profit. $50 would return $7 0 or 9 per cent. on the stock during the cotn, according to the market. Wine Products of New Jersey.

This state is becoming celebrated for grape culture and wine. One of the richest portions of it is produced in New Jersey by Mr. Affenspurger, whose name has become a household word as a producer of strictly pure unadulterated wine. The Port Grape Wine of Mr. Affenspurger was awarded the first premium at the centennial. It is now bottled or put in market months if not years before, and has become thoroughly fine and mellow. It has proved itself a wonderful assistant to physicians who prescribe it from its purity, and have hitherto found difficulty in obtaining a pure article. It is unsurpassed as a medicinal or dietetical preparation, and is given to consumptives to drink with their raw eggs, and as a nutritious food. Knowing the difficulty of getting an improved article of pure California Port is well understood to be so great as to prevent physicians from allowing their patients to run the risk of using it. Mr. Speer being aware of this fact has taken the utmost care in the making of his wine from the ripest and finest grapes, so as to supply the imported wine with a product of equal excellence, which we are glad to say he seems to have accomplished in the most unexceptionable manner and the most reliable for medicinal purposes. He consigns throughout the country, sells it as bottled by producer—N. Y. Tribune. Salesroom 31 Warren street, N. Y.
